

VIRTUAL SCHOOL POLICY
MULTIPLE CHILD ENROLLMENT

The Greenfield School Committee is committed to assuring, as much as possible, that all children who enroll in Greenfield's virtual academy have a successful education.

Families seeking to enroll three (3) or more children will be required to participate in a more extensive application process. This will afford school personnel a context for deciding whether or not multiple child enrollment will allow each child to successfully participate.

Areas to be considered

- 1) age span of children and the variety of different program requirements one family must coordinate and manage;
- 2) parent experience in terms of education and managing home programs or similar technology/data situations;
- 3) reasons parents are seeking the online school for each of the children, and;
- 4) other issues of prior schools and schooling, etc.

Following parent interview, the virtual school staff will give the family a recommendation for the number of students the virtual school administration believe will be able to benefit from the school and the children that will be accepted for this school and school model, if any.

Second Reading for Affirmation of Adoption: October 28, 2010
