

STAFF PERSONAL SECURITY AND SAFETY

Through its overall safety program and various policies pertaining to school personnel, the Committee will seek to assure the safety of employees during their working hours and assist them in the maintenance of good health.

Prior to employment in the school system all employees will submit evidence of a physical examination and compliance with any health regulations required by state law.

The Superintendent may require an employee to submit to a physical examination by a physician appointed by the school system whenever that employee's health appears to be a hazard to children or others in the school system or when a doctor's certificate is needed to verify need for sick leave.
